FLYING FISH

"... My inspiration came from a trip to Shantarsky islands, in the north of the Sea of Okhotsk: after a close contact with whales, primitive, gigantic and majestic, animals, free in their habitat, far from civilizations... watching them splashing in huge numbers and clapping their 8-meter tails, They were literally flying out of water.

FLYING FISH collection reflects everything: it will bring you the beauty of nature, freedom and art of the hand painting Italian masters of L'Antica Deruta.

Everything impossible is possible!

And even a fish can fly!
